Vet-in-Training First Surgery

Dr. Geertsema decided early on in life that he wanted to practice veterinary medicine. The photo at left captured Herman's first dissection at the age of two.

During his school years Dr. Geertsema helped to support his family by shoeing and training horses. This led to his special interest in feet and hoof problems, now regularly encountered in his practice. Dr. Geertsema graduated from the University of Guelph Ontario Veterinary College, North America's oldest veterinary college, in 1994. He also holds an Animal Science Degree.
